Agent: Karen R Brown

Client: Winnie and Jian

Karen is a very professional agent in many ways. She's been very responsive and always on time. She knows the area very well. Her estimations of housing values (of several houses we were interested in) were very close to final market prices. And after taking us to see a couple of houses, she knew very well what kind of houses we would like. But above and beyond being professional, she is extremely nice and considerate. We had many weird preferences regarding the house; she has been very mindful of them. In the end, she helped us find our dream house within our budget. Our friends used to tell us that finding a perfect home requires not only time, but also luck. For us, having Karen as our buyer agent is the luckiest thing we've had during the house hunting process.
