The following clauses are provided for descriptive purposes only. For detailed information, consult the Massachusetts Department of Public Health, the Massachusetts Department of Environment Protection, or other appropriate agency, or your attorney.

- A. **Flood Hazard Insurance Disclosure Clause.** The lender may require Flood Hazard Insurance as a condition of the mortgage loan, if the lender determines that the premises is in a flood hazard zone.
- B. **Chlordane Disclosure Clause.** Pesticide products containing chlordane were banned in Massachusetts on June 11, 1985, following a determination by the Department of Food and Agriculture that the use of chlordane may cause unreasonable adverse effects on the environment including a risk of cancer. Although existing data does not conclusively prove that significant health effects have occurred as a direct result of chlordane use, the long-term potential health risks are such that it is prudent public health policy, according to the Department, to eliminate the further introduction of chlordane into the environment.
- C. **Urea-Formaldehyde Foam Insulation Disclosure Clause.** The Buyer acknowledges that s/he/they has/have been advised that Urea Formaldehyde Foam Insulation (UFFI) has been declared by the Massachusetts Department of Public Health (DPH) to be a banned hazardous substance and that new installation is prohibited. Where UFFI was previously installed, the Seller is required to advise the Buyer (1) where such UFFI is located and, if known, when it was installed; (2) a copy test results concerning the air level of formaldehyde; and (3) a copy of information form the DPH concerning UFFI and formaldehyde levels. Under certain circumstances the cost of removal may be reimbursed. Exposure to hazardous levels or formaldehyde may cause personal injuries, including headaches, nausea or cancer. The Buyer acknowledges that s/he/they has/have been advised to consult the DPH or her/his/their attorney for further information.
- D. **Asbestos Disclosure Clause.** The United States Consumer Product Safety Commission has maintained that asbestos materials are hazardous if they release separate fibers, which can be inhaled. Asbestos is a common insulation material on heating pipes, boilers, and furnaces. It may also present in certain types of floor and ceiling materials, shingles, plaster products, cements and other building materials. The Buyer may have the property professionally inspected for the presence of asbestos and if repair or removal of asbestos is desired, proper safety guidelines must be observed.
- E. **Lead Paint Disclosure Clause.** Whenever a child under six years of age resides in any residential premises in which any paint, plaster, or other accessible material contains dangerous levels of lead, the owner is required by law, to remove said paint, plaster or cover with appropriate materials so as to make it inaccessible to a child under six years of age. Consumption of lead is poisonous and may cause serious personal injury. Whenever such residential premises containing dangerous levels of lead undergoes a change of ownership, and, as a result, a child under six years or age will become a resident, the new owner is required by law to remove said paint, plaster or cover with appropriate materials so as to make it inaccessible to such child.
- F. **Hazardous Material Disclosure Clause.** In certain circumstances Massachusetts law can hold an owner of real estate liable to pay for the cost of removing hazardous or toxic material from real estate and for damages resulting from the release of such materials, according to the Massachusetts Oil and Hazardous Material Release and Response Act, General Laws, Chapter 21E. The Buyer acknowledges that s/he/they may have the property professional inspected for the presence of, or the substantial likelihood of release of oil or hazardous material and such proof of inspection may be required as a prerequisite for financing the property.

G. Radon Disclosure Clause. Radon is an odorless, colorless, tasteless gas produced naturally in the ground by normal decay of uranium and radium. Radon can lead to the development of radioactive particles which can be inhaled. Studies indicate the result of extended exposure to high levels of radon may increase the risk of developing lung cancer.

H. Agency Disclosure. ALL BROKERS/SALESPERSON REPRESENT THE SELLER, NOT THE BUYER, IN THE MARKETING, NEGOTIATING AND SALE OF THE PROPERTY, UNLESS OTHERWISE DISCLOSED. HOWEVER, THE BROKER/SALESPERSON HAS AN ETHICAL AND LEGAL OBLIGATION TO SHOW HONESTY AND FAIRNESS TO THE BUYER IN ALL TRANSACTIONS.

Seller acknowledges that: the information contained in this statement is accurate, true and complete to the best of Seller's knowledge, information and belief; Seller has provided all the information contained in this Seller's Statement on Property Condition; and that the broker/realtor has not prepared this statement, not provided any information regarding the Property which appears on this Statement. Seller hereby indemnifies, holds harmless and releases all brokers/realtors involved in the sale of which the property from all liabilities, claims, loss, cost or damage in connection with the information contained in this Statement. I/we hereby authorize the listing broker to provide copies of this statement to other real estate brokers and agents and prospective buyers of the property.
