

PETEY'S LOCAL, WOMAN-OWNED BUSINESS HIGHLIGHT:

# JENNE LEATHERWORK

Nothing says "warm & cozy like the innate smell of leather;  
it's always the first thing customers say, "Oooh, I love the smell of this shop!"  
and it is such a versatile, wonderful medium to work with!

I've been doing leatherwork since the age of 16 on Cape Cod. I started with Canterbury Leather in Orleans, making custom sandals, belts, and all things fringe back in the 70's. I went to college at Middlebury, VT and worked with a lady there for 4 years who taught me how to make coats from patterns, bags, etc. She gave me my current machine as a wedding gift in 1980.

The chapters are too many to tell here, but I have raised my 2 children as a stay-at-home mom doing leatherwork, have had two dedicated shops of my own in Saratoga Springs, NY.

I have recently moved to the North Shore area to be closer to family, and have set up with Stickney's Tack and Repair in Newbury, MA. Kelly Stickney does equestrian work of the highest degree and I do garment, motorcycle, bag, and accessory repairs; it's a winning ticket!

It is just part-time now, but please call for an appointment if you have any leather needs from patches to alterations and repairs.
